EDUCATION

University of Warwick, *BSc Economics (Predicted: First)* *October 2025 – June 2028*

- **Results:** First year: First Class (74%), ranked 31st of 444. Modules including: Foundations of Accounting (90%), Mathematical Techniques (88%), Microeconomics (77%) and Statistical Techniques (76%)

Passed CFA Level I *August 2026*

Bishop Walsh Catholic School *2018 – 2025*

- **A-Levels:** Mathematics (A*), Politics (A*), Further Mathematics (A), Economics (A), EPQ (A*) on ownership structures of rail networks; **GCSEs:** Ten Grade 9s, One Grade 8; highest-achieving GCSE and A-Level student in cohort

RELEVANT EXPERIENCE

Newbrook Capital Solutions, *Intern* *September 2026*

- Built LBO and covenant models on a past sponsor mandate, sizing debt terms against pricing grids, and stress-testing leverage, interest cover and covenant headroom against downside cases
- Analysed how lenders assessed and priced sponsor and corporate lending across debt advisory mandates, from IM preparation and lender outreach to final terms and senior facilities agreements

PwC, *Intern* *September 2026*

- Interviewed a UK healthcare CEO for PwC's *Emerging Trends in Real Estate*; notes used in the research write-up; researched REIT structures and observed calls across live real estate mandates

MFC Equity, Warwick

Head of Industrials *October 2026 – Present*

- Lead the industrials team and stock pitches; manage industrials positions within MFC Equity's simulated portfolio
- Built an Excel portfolio tracker pulling live data from Capital IQ on returns, sector weights and other metrics

Head of Outreach *April 2026 – Present*

- Moderated a discussion with BNP Paribas AM's Head of Fixed Income Specialties on OAT-Bund spreads and US Treasury yields; lead an annual speaker series and a team of 6 sponsorship representatives
- Advise on the legal structure of a new real money fund, working with pro-bono lawyers; considered the implications of different structures including reporting requirements, liability and tax

Analyst *January 2026 – October 2026*

- Contributed to winning pitches (100% win rate), with buy recommendations for Newmont and Amentum, and a short call for Chevron, through DCF modelling, sensitivity and peer analysis
- Regressed Chevron's share price against WTI to quantify oil-price sensitivity relative to peers

Whitman Asset Management, *Intern* *July 2024*

- Researched Renold plc and pitched a buy to the investment team, arguing the market was underpricing margin expansion and bolt-on acquisitions; shares returned 50%+ before a take-private by a US mid-market sponsor
- Tested Victorian Plumbing investment assumptions through primary research with its CFO and CMO; revised a provisional buy recommendation to hold after identifying disruption from a centralised distribution-centre move

PROJECTS

Apollo/easyJet Transaction Analysis *October 2026 – November 2026*

- Built an LBO of Apollo's £5.7bn, 715p take-private of easyJet from the Scheme Document and financing papers, modelling the 14% preference-share class, £3.5bn senior secured financing and cash through the FY28 aircraft delivery peak
- Found Apollo's ∼5% base-case IRR comes almost entirely from the preference shares; a 20% IRR needs EBITDA ∼7% above management's plan and an exit at the ∼4.4x entry multiple; stress-tested leverage and liquidity downsides

Structured Credit research - Santander UK SRT *October 2026*

- Analysed Santander UK's £1.5bn Colossus 2026-1 significant risk transfer (SRT) on an SME and CRE pool, building an illustrative tranche-level capital model to assess regulatory capital relief and transaction economics
- Modelled credit losses under base, stress and severe scenarios, assessing attachment points, borrower concentration, amortisation and investor risk-return trade-offs

Python Portfolio Analysis (CFA Level I Capstone Project) *August 2026*

- Ran Monte Carlo simulations and optimised portfolio weightings in Python, pulling market data via yfinance

OTHER EXPERIENCE

Warwick Motorsport, *Treasurer* *April 2026 – Present*

- Manage society finances of £20,000+ revenue and a £5,000 budget, including SU compliance reporting

SKILLS & INTERESTS

Technical: Excel, VBA, Python, LSEG Workspace, Capital IQ, PowerPoint, Stata and LaTeX
Interests: Rugby, squash, motorsport and self-studying French
