EDUCATION

University of Warwick, *BSc Economics* *October 2025 – June 2028*

- **Results:** First year: First Class (74%), ranked 31st of 444. Modules including: Foundations of Accounting (90%), Mathematical Techniques (88%), Microeconomics (77%) and Statistical Techniques (76%)
- Group project on homeworking and worker welfare (82%): wrote the Stata .do file and much of the report; descriptive analysis found stronger associations with self-employment and marital status than with homeworking

Passed CFA Level I *August 2026*

Bishop Walsh Catholic School *2018 – 2025*

- **A-Levels:** Mathematics (A*), Politics (A*), Further Mathematics (A), Economics (A), EPQ (A*); **GCSEs:** Ten Grade 9s, One Grade 8; highest-achieving GCSE and A-Level student in cohort

RELEVANT EXPERIENCE

Newbrook Capital Solutions, *Intern* *September 2026*

- Built LBO and covenant models on a past sponsor mandate, sizing debt terms against pricing grids, and stress-testing leverage, interest cover and covenant headroom against downside cases
- Analysed sponsor and corporate debt advisory execution, from origination and fee proposals through investment memorandum (IM) preparation, lender outreach, pricing grids and completion
- Identified opportunities to use AI in IM drafting, lender logs and Q&A management, flagging confidentiality limits

MFC Equity, Warwick

Head of Industrials *October 2026 – Present*

- Lead the industrials team and stock pitches; manage industrials positions within MFC Equity's simulated portfolio
- Built an Excel portfolio tracker pulling live data from Capital IQ on returns, sector weights and other metrics

Analyst *January 2026 – October 2026*

- Contributed to winning pitches, with buy recommendations for Newmont and Amentum, and a short call for Chevron, through DCF modelling, sensitivity and peer analysis
- Regressed Chevron's share price against WTI to quantify oil-price sensitivity relative to peers

Head of Outreach *April 2026 – Present*

- Moderated a discussion with BNP Paribas AM's Head of Fixed Income Specialties on OAT-Bund spread widening and US Treasury yields
- Lead the organisation of an annual speaker series; manage a team of 6 sponsorship representatives

Whitman Asset Management, *Intern* *July 2024*

- Researched Renold plc and developed a buy recommendation based on the market underestimating the success of its acquisition-led growth strategy
- Tested Victorian Plumbing investment assumptions through primary research with its CFO and CMO; revised a provisional buy recommendation to hold after identifying disruption from a centralised distribution-centre move

PROJECTS

Apollo/easyJet Transaction Analysis *In progress*

- Building an LBO model to assess the assumptions required to support Apollo's 715p offer for easyJet under consensus, management and downside scenarios

Python Portfolio Analysis (CFA Level I Capstone Project) *August 2026*

- Ran Monte Carlo simulations and optimised portfolio weightings in Python, pulling market data via yfinance

OTHER EXPERIENCE

Warwick Motorsport, *Treasurer* *April 2026 – Present*

- Manage society finances of £20,000+ revenue and a £5,000 budget, including SU compliance reporting

PwC, *Intern* *September 2026*

- Interviewed a UK healthcare CEO for PwC's *Emerging Trends in Real Estate*; notes used in the research write-up; researched REIT structures and observed calls across live real estate mandates

SKILLS & INTERESTS

Technical: Excel, Python, Claude, LSEG Workspace, Capital IQ, PowerPoint, Stata and LaTeX
Modelling: LBO, covenant headroom, capital structure, three-statement, DCF, sensitivity and regression
Interests: Rugby, squash, motorsport and self-studying French
